

## 3rd Poland — Czech Republic — Germany Workshop on INTEGRATED TECHNOLOGY DEVELOPMENT FOR EFFECTIVE AND SUSTAINABLE UTILIZATION OF DOMESTIC CARBON RESOURCES

Processing of waste plastic material was chosen to be the key topic of this year's workshop, which also defines the short name of this year's workshop: RECPLAST.

The programme will offer opinions on the key topic arranged in four thematic sections from different perspectives of individual countries (PL, CZ, DE).

### RECPLAST 16. 1. 2020
